

SCIENTIFIC ANNOUNCEMENTS

SENSORY INTEGRATION

With special scientific interest Occupational Therapists, Physiotherapists and Therapists of ELEPAP Athens and Annexes, completed their training, on the three cycles of Sensory Integration Program. The Health Scientists of ELEPAP, fully proficient and excited about the new approach, are ready to implement the new intervention of Sensory Integration in children with disabilities.

“SENSORY JOURNEYS” Full of experiences

Speech and Language Therapists deliver weekly group therapy sessions in both classes of the Day Care Center of ELEPAP, carrying out the therapy technique that is called “Sensory Journeys”.

This has been developed for children with profound and multiple learning, movement and sensory difficulties who need access to a range of visual, hearing, tactile and olfactory stimuli.
