

Invitation

The Institute for Science,
Ethics and Innovation of the
University of Manchester and
the **Eugenides Foundation**
invite you to a presentation featuring

Professor Sir John Sulston
discussing

“The University’s Essential Role in Greening Humanity”.

Professor Sir John Sulston
(Nobel Laureate in Physiology/Medicine 2002),
Chair of the Institute for Science,
Ethics and Innovation,
The University of Manchester, UK.

With introduction by Professor
Elias D Kouvelas, Emeritus
Professor of Physiology,
University of Patras, Greece.

Thursday, October 14, 2010
at 18:00.
Eugenides Foundation
387 Syngrou Ave., P. Faliro.

Simultaneous translation will be provided.
Cocktails will follow the programme.
R.S.V.P. 210 94 69 642.

Welcome

to ‘Greening Humanity’,
an international conference organized by
Institute for Science, Ethics and Innovation of the Uni-
versity of Manchester and the Eugenides Foundation.
14 - 16 October 2010

Climate change and the world economic crisis have created
new challenges for economic development to add to the
old ones. The objective of sustainable development (Green
Economy) has become as important as the fight against
disease, hunger, poverty and social deprivation, indeed it
has become part of that agenda. The ethical dimension of
development and the role that science and innovation play
in fostering it are essential in turning need into opportunity.
Yet they are crowded out of the global policy agenda by
priorities that are arguably of lesser importance. This
conference will attempt to close a gap in the global policy
making debate. Focussing on the contribution of science
and innovation to sustainable development we will explore
how academic and policy insights from the fields of ethics,
economics and regulation can facilitate the achievement of
these ends.

Official language: English.
The Conference Secretariat will operate
on Friday 15th Oct. and Saturday 16th Oct.
from 08:00 to 18:00.

gapore.

10.40-10.55 Coffee break.

10.55-12.25 Panel Discussion.

12.25-12.30 Chairman's closing remarks.

12.30-13.30 Lunch break.

Session 4. Ethical Science and Innova- tion – towards sustainable development.

Chair:

13.30-13.40
Professor John Sulston (Science and
Biomedical Ethics)
Chair, Institute for Science, Ethics and In-
novation, The University of Manchester.

Keynote Speakers:

13.40-14.10
Dr David Hall-Matthews
(International Development)
Senior Lecturer in International Develop-
ment, School of Politics and International
Studies, University of Leeds.

14.10-14.40
Dr Catherine Rhodes
(Ethics of Science)
Research Fellow, Institute for Science, Eth-
ics and Innovation, The University of Man-
chester.

Panel:

14.40-14.50
Professor John Harris
(Biomedical Ethics)
Lord Alliance Professor of Bioethics, Di-
rector, Institute for Science, Ethics and In-
novation, The University of Manchester.

14.50-15.00
Dr Annabelle Lever
(Philosophy and Public Policy)
Research Fellow, Institute for Science, Eth-
ics and Innovation, The University of Man-
chester.

15.00-15.10
Dr Mihail Kritikos
(Ethical Governance of Research and
Innovation).

Ethics Review Sector, Directorate for Sci-
ence, Economy and Society, Directorate
General for Research, European Commis-
sion.

15.10-15.25 Coffee break.

15.25-16.55 Panel Discussion.

16.55-17.00 Chairman's closing
remarks.

Session 5. Greening Humanity – final panel discussion and closing remarks.

17.00-17.10
Professor Emiliios Avgouleas
(International Financial Law)
Professor of International Financial Markets &
Institutions, Director of International Financial
Law LLM, School of Law, The University of
Manchester.

17.10-17.20
Professor John Harris
(Biomedical Ethics)
Lord Alliance Professor of Bioethics,
Director, Institute for Science, Ethics and
Innovation, The University of Manchester.

17.20-17.30
Stephen Hockman QC
(Environmental and Planning Law)
Chambers Barrister, Six Pump Court,
London.

17.30-17.40
Professor John Sulston
(Science and Biomedical Ethics)
Chair, Institute for Science, Ethics and
Innovation, The University of Manchester.
