### Letter of Recommendation

The [MBA International program](#) of the [Athens University of Economics and Business](#) has been working with Global Sustain since 2010. All of our experience during our seven-year association has been very positive and we have always been completely satisfied with their performance.

So far, we have collaborated with Global Sustain in the frame of several projects, including the communication of the program activities, knowledge sharing through the publication of Global Sustain's Yearbooks, CSR events addressed to the students of the University, visiting lectures to our students. The collaboration keeps on expanding each year, as Global Sustain constantly develops the services offered to its members.

Global Sustain has an exceptionally well-trained team of business professionals, who are knowledgeable, friendly and easy to work with. They always act professionally, they are dedicated and efficient in their work, and they truly care about their partners. They pay attention to detail, think creatively and make positive, quality contributions.

All of these provide effective and mutually beneficial cooperation of any company wishing to collaborate with Global Sustain. Therefore, it's with full confidence that we recommend Global Sustain as reliable business partner.

Kind regards,

Professor George Ioannou  
Director, MBA International Program
