## Testimonial Letter

Since the beginning of 2016, we are members of Global Sustain. Throughout all those months of cooperation, we gained a social partner we can count on in Corporate Social Responsibility issues; we also felt that we can draw important know-how enabling us to take the next steps forward.

For Vassiliko Cement Works, the concept of Sustainable Development includes all company's values and principles. Our key focus is respect for people, the environment and contribution to Society.

Global Sustain can provide all the support we need through briefings, multifaceted communication, corresponding material and actions in order to fulfill our objectives regarding Sustainable Development and the company's overall strategy.
